1. Contract is hereby revised as follows:

(a) Paragraph II entitled TERM under Procurement of Utility Services is hereby revised to read: This contract shall continue in effect until terminated at the option of the Government by the giving of written notice not less than 180 days in advance of the effective date of termination.

(b) Water Service Specifications, para 6: Minimum required consumption is changed from 15 million gallons per month to 10 million gallons per month.

(c) Rate Schedule: The purchase price shall be the City's purchase price from the Appomattox River Water Authority plus $.017 per thousand gallons. Should the Government utilize less than the 10 million gallons in any month, the Government shall pay the difference between water used and the 10 million gallons at the rate of $.017 per thousand gallons.

Every five (5) years, the mark up rate of $.017 per thousand gallons may go under review before any increase in mark up can be granted. Such additional mark up, if any, shall be mutually agreed upon by the parties hereto. In the event no such mutual agreement occurs, either party may terminate this agreement by giving the other no less than one (1) year notice after each successive five (5) year period.

2. All other terms and conditions remain the same.

3. This modification is subject to approval of the Army Procurement Officer.

4. Effective date of modification is '88 January 01.

RE: Water Rates - Contract #DABT 59-76-C-0136

Dear Ltc. Munson:

I am in receipt of your request for consideration on a possible rate change on the above referenced contract. As outlined in the contract modification 1 (c), dated January 1, 1988:

"Every five (5) years, the mark up rate of $0.17 per thousand gallons may go under review before any increases in mark up can be granted."

This contract was modified at the request of Ft. Lee and mutually agreed upon by both parties. In response to several inquiries from your office concerning water quality, PH, THM and chlorine residual, the City of Petersburg has expressed a willingness to meet and resolve problems Ft. Lee is having with water quality, however, Ft. Lee has not responded to our offers.

Based on the current provisions, I do not feel it is appropriate to consider a contract modification at this time. The City values Ft. Lee as a customer and is available to meet and discuss problems with your water system.

If I can be of any further assistance on this matter, please contact me at 733-2407.

Sincerely,

Albert E. Andrews, III
Superintendent

and Housing

SUBJECT: Water Rates to Contract No. DABT59-76-C-0136

Mr. Albert E. Andrews III
Utility Lines Division
Department of Public Utilities
City of Petersburg
Petersburg, VA 23803

Dear Mr. Andrews:

Request your office consider a possible change to the rate structure of subject contract.

Presently Fort Lee is paying the Appomattox River Water Authority (ARWA) rates to the City of Petersburg, plus .17 cents per 1000 gallons of water purchased. There is a minimum consumption amount of 10,000,000 gallons for which Fort Lee pays .17 cents per 1000 gallons for the amount of difference between actual usage and minimum contract amount. This formula makes your water more expensive than any other supplier Fort Lee has. With this in mind, Fort Lee respectfully request you to consider the following.

The rates to be charged Fort Lee will be as follows:

a. Consumption cost will be the cost to the City from ARWA. (Presently 49.8 cents per 1000 gallons.)

b. A meter charge for $500.00 per month. (No minimum consumption amount requirement.)

This structure would put Petersburg in a more competitive range with other suppliers to Fort Lee.

Your positive reply to this matter will be anticipated.

Sincerely,

William M. Munson
Lieutenant Colonel, U.S. Army
Director, Engineering and Housing
