b. As required by the Code of Virginia, as amended, a public hearing on a proposed Ordinance increasing the vacant building registration fee and civil penalty.

RECOMMENDATION: Recommend Council adopt the attached Ordinance amending and reordaining Sections 22-140(c) and 22-141(a) of chapter 22, of Article V, of the Code of the City of Petersburg, as amended, increasing the vacant building registration fee and civil penalty.

She asked whether this was a new ordinance or if this was some that has been on the books that is being amended. She asked that if it is some that has been on the books that are being amended then how the property owners have been notified of the registration requirement if they have vacant property. She asked that if this is something new then how will they be notified and how will this be enforced. She stated that on the cover sheet to the ordinance it states that five years ago the City had over 500 red tag properties. She stated that it also states that the City is down to 200 and something properties. She stated that in other localities they enforce the ordinance or have other means in which to prevent these properties from just sitting vacant. She asked why is there a few differential for a targeted area versus across town.

Chief Hairston stated that this is not a new ordinance. He stated that this ordinance has been on the books for quite some time. He stated that they are asking that the fees be raised. He stated that one of the problems that are in the City is that there are a lot of absentee owners and that it is hard to track these people down. The proposed budget recommends an increase of 8.6% to water rates and 13.5% to sewer rates (combined increase is 11.9%). The chart below represents the average bi-monthly utility bill for residential users.

g. As required by the Code of Virginia, as amended, a public hearing on the proposed FY2013-2014 Petersburg Area Transit (PAT) Budget.

BACKGROUND: The recommended budget for Petersburg Area Transit is $1,911,748 for the Fiscal Year beginning July 1, 2013 and ending June 30, 2014. The appropriation ordinance breaks down the expenditure and revenue distribution that supports this request by category.

RECOMMENDATION: Recommend Council adopt the attached Ordinance in the amount of $1,911,748.
William Johnson, City Manager, gave a brief overview of the proposed FY2013-2014 for the Petersburg Area Transit (PAT) Budget. He stated that the City cannot actually adopt the budget tonight due to the public hearing that will be held on June 18, 2013, regarding the route changes.

Mayor Moore opened the floor for public comment.

He stated that he takes the bus to purchase groceries or to be able to go places. He stated that he has to work tomorrow and that he will be looking forward to the bus to take him there. He stated that he has had two jobs on the same bus stop. He stated that the children at Virginia State University need to be able to get off campus. He stated that there are a lot of freshmen that cannot afford vehicles so they use the buses for transportation. He stated that if some of the routes are taken from them how money will be giving back to the community. He stated that the City needs to figure out why they take it and when they take it. He stated that if the bus is not being taken as much as it needs be then maybe the City needs to advertise it more.

Michael Edwards, 510 Squaw Alley, stated that he is going to speak on the transit budget figure. He stated for an operation as small as Petersburg Area Transit (PAT) this is a great amount of money. He stated the PAT has at least five supervisors for an operation that small. He stated that for years one person ran the entire operation. He stated that he cannot avoid the elimination of routes. He stated that he did not want to talk on it but that it is not going to work. He stated when the City talks about eliminating routes for a transit system that was put in place by an independent person and put in place for the citizens of the City that did not have the proper transportation or the means or the money to get where they needed to go. He stated that now when the City talks about eliminating Ettrick there are people that still live in that area. He stated that it is always talked about that Virginia State University is the gateway to the City. He stated that when the students need to get around they do not have money to catch a cab and usually they have to wait about three hours for one. He stated that the City needs to look at all the useless supervisor’s positions and get some more money to where they can keep the bus routes.

Jeff Fleming, 1819 Chuckatuck Avenue, stated that he is not the sharpest knife in the box. He stated that he has a question. He asked what are the neighboring municipalities paying for the City to run a bus service into their City. He stated that he thinks that the city needs to approach this. He stated that if the other localities are not putting anything into this then maybe the City needs to cut back in that area. He stated that the municipalities are making tax dollars of the City of Petersburg citizens.

Mr. Johnson stated that the last fiscal year and this year they sent letters to all the surrounding cities and the tri-cities as well. He stated that this year the City sent a letter to the general manager of Southpark Mall seeking funding. He stated that the only entity that has truly responded has been the City of Colonial Heights. He stated that the City received a written response from them. He stated that he would encourage everyone that has concerns about the bus routes that have been eliminated and the bus routes that are being redirected to please be present at the meeting on June 18, 2013. He stated that it will be an eye opening experience. He stated that the City had a contract with Virginia State University that expired in 2009. He stated that the City still runs the service today. He stated that the down side to this is that Virginia State University was contributing roughly $58,000. He stated that the cost of running the routes was $280,000. He stated that if you do the math then you will see where the City is. He stated also if you recall that in the previous fiscal years that a transfer from the general fund to transit was roughly $1 million dollars. He stated that he does agree with one of the comments that were made that if there were more riders then this would make a great difference.

Vernel Gannaway, 652 Old Wagner Road, stated that he was at a particular meeting with Mr. Jones in past that was in reference to transit. He stated that he believes that this is one of the major reasons why he is not getting support of the buses. He stated that it is a beautiful bus facility but that it is empty. He stated that there are a lot of things that they can do inside of it. He stated that a lot of money is just coming through. He stated that without the beautiful building the City can have something there. He stated that the City needs advertisement. He stated that he knows that there is some way or system where there can be a little restaurant in the facility or something for the people to gravitate to so that the people can come. He stated that for the people that would like to tap into this they would have to pay.

Linwood Christian, 410 Mistletoe Street, stated that if some of the bus routes continued or not would not affect him because he drives. He stated that he usually walks. He stated that he does know a great number of people that use the buses. He stated that one thing that he is going to applaud City Council on is that there has been a decision made that allows them to review the proposal regarding elimination of routes. He stated that some of the routes serve vital transportation. He stated that he would like to thank Mr. Johnson again for the information because Colonial Heights was the only one that responded. He stated that from what he read it was not a favorable response. He stated that the way that the buses ended up in Colonial Heights was not done properly.

Seeing no further hands, Mayor Moore closed the public hearing.

There was discussion among City Council Members.
h. As required by the Code of Virginia, as amended, a public hearing on the proposed FY2013-2014 Special Fund Budget.

BACKGROUND: The recommended Special Fund Budget is $4,649,431 for the Fiscal Year beginning July 1, 2013, and ending June 30, 2014. The appropriation ordinance breaks down the expenditure and revenue distribution that supports this request by category.

RECOMMENDATION: Recommend Council adopt the attached Ordinance in the amount of $4,649,431.

William Johnson, City Manager, gave a brief overview on the FY2013-2014 Special Fund Budget.

Linwood Christian, 410 Mistletoe Street, asked what the special fund is.

Irvin Carter, Finance Director, stated the special funds are grant monies. He stated that it is monies that the City gets for a specific purpose or designation. He stated that for example, the Litter Control Grant. He stated that the things that the City anticipates getting money for are appropriated for the fiscal year.

Mr. Johnson stated that the reason that it is called a special fund is because it is not funded with the general fund dollars. He stated that this is a requirement of the general accepting accounting principles. He stated that if the City does not designate the special funds when the audit is done then the auditors actually leave a bad mark for not keeping the funds separated from the federal fund. He stated that to name a few is the Office on Youth, Police Department, Court Services Unit, Commonwealth Attorney, Social Services, Library, Community Corrections, Parks and Leisure Services and the Fire Department. He stated that these are all a variety of grants that come in the City that is not a part of the general fund. He stated that they have to maintain these funds separately.

Seeing no further hands, Mayor Moore closed the public hearing.

Council Member Coleman made a motion to approve the proposed ordinance in the amount of $4,649,431 for the Special Fund Budget. The motion was seconded by Council Member Myers. The motion was approved on roll call. On roll call vote, voting yes: Coleman, Myers, Pritchett, Ross, Wilson-Smith, Webb, Moore

He stated that he wants to know has this been done as of yet. He stated that he would like it clarified as to whether they are operating the golf course at a loss. He stated that his next question would be why they still are funding a team that at one time he thought was up for sale. He asked whether the team is no longer up for sale. He stated that if the team is going to be up for sale and the City is still maintaining it he wants to know for what reason. He stated that if the things that they disagreed as citizens about the golf course being done then this is money that they should look at
refund. He stated that the most use would be from recreation because of the summer program. He stated that this is the most that he has seen from it since the golf course has been open. He asked why the City is continuously putting money towards a team that was supposedly up for sale. He stated that he would have been thrown under the bus for this. He stated that yet the leaders and manager are skating not even skating on thin ice. He stated that he is tired of the City money going down the drain.

Gloria Brown, 1557 South Sycamore Street, stated that the golf course was a big controversy when it was proposed. Her question is pretty simple is what is the ROI on this. She stated that she loves the golf course and that she utilizes it. She stated that her son and her daughter play there. She stated that it is an asset. She stated that right across the street is a struggle to find what is across the street. She stated that the golf course is running and her question is what the ROI from the golf course is. She stated that if it is running on a negative then the school system is running on a negative. She stated that she would like help to understand.

Jeff Fleming, 1819 Chucksatuck Avenue, stated that it was about eight or ten years ago that he was addressing City Council about the golf course.
