RECEIPT OF UNSOLICITED PPEA PROPOSAL AND SOLICITATION OF COMPETING PROPOSALS (13-0041)

I. Introduction

The City of Petersburg, Virginia, ("City") has received an unsolicited proposal pursuant to the Public-Private Education Facilities and Infrastructure Act of 2002 ("PPEA"), Va. Code § 56-575.1, et seq. The City previously adopted implementing procedures for the PPEA. Copies of these procedures are available on the City's website at http://www.petersburg-va.org/purchasing/tab/Link.pdf.

Pursuant to the PPEA and these implementing procedures, the City gives notice that it has decided to consider an unsolicited proposal by Versar Inc., along with any competing proposals that are submitted to it by 2:30 p.m., July 01, 2013, to determine whether the City should enter into a Comprehensive Agreement pursuant to the PPEA under which a Versar, Inc. for a public-private partnership under which the private proposer would provide Rehabilitation of the Poor Creek Pump Station Force Main located at the East edge of East Washington Street (Route 36) to the North edge of the US Route 460.

The City invites competing proposals by that deadline. The City has determined that the "competitive negotiation" of other than professional services procurement method, as described in its implementing procedures, will be used to consider the unsolicited proposal and any competing proposals. Under this method, any competing proposers are to submit by the deadline indicated their conceptual-phase proposals, with contents as prescribed by the PPEA, the implementing procedures, and this Receipt of Unsolicited PPEA Proposal and Solicitation of Competing Proposals ("Solicitation"). The evaluation criteria for this procurement are as stated in Section VI of this Solicitation.

II. General Description of Proposal Submittal, Evaluation and Selection Process

The City contemplates that proposal submittal, evaluation, and selection will be a multi-step process. In general terms, in Step I, proposers submit initial conceptual-phase - 2- proposals, the contents of which are described in the PPEA, in the City's implementing procedures, and in this Solicitation. Proposers should carefully follow all the instructions in this Solicitation to ensure that their proposals are eligible. The City will review the
proposals and evaluate them in accordance with the evaluation criteria contained in this Solicitation. The City may ask proposers, individually or collectively, for clarifications or further information, may check references and other information, may meet individually with proposers, in its discretion, and may request oral presentations, or it may base its evaluations on the proposals as submitted. If there are a number of competing proposals, the City will likely select a limited number of proposers from Step I (perhaps two) as the proposers who are fully qualified and best suited to submit a detailed-phase proposal that best meets the City's needs and invite those proposers to submit detailed-phase proposals by a deadline to be specified in the future. Upon receipt of these proposers’ detailed-phase proposals, the required contents of which will be prescribed by the PPEA, the City’s implementing procedures, and the invitation to submit detailed-phase proposals, the City will evaluate the detailed-phase proposals, request additional information or clarifications if deemed necessary, and conduct negotiations with each proposer asked to submit a detailed-phase proposal. The City may request oral presentations from the proposers. However, the City may, in its discretion, at any stage, choose just one proposer for negotiations if proposals show only that proposer is fully qualified or show that that proposer is clearly more qualified than any other.
